

Abhishek Sharma

DevOps Engineer | Cloud Engineer (Microsoft Azure)

+91-9565535583 | abhishek3758sharma@gmail.com | linkedin.com/in/abhishek3758sharma | github.com/Abhishek3758sharma

Professional Summary

DevOps Engineer with hands-on experience automating CI/CD pipelines and Azure infrastructure using Terraform, GitHub Actions, and Azure DevOps. Skilled in Docker, production-grade Infrastructure as Code, and DevSecOps scanning (TFLint, tfsec, Checkov, Gitleaks) in CI/CD workflows, with a strong base in Kubernetes, Azure Monitor/Log Analytics, Entra ID, and RBAC.

Technical Skills

- **CI/CD & Containers:** GitHub Actions, Azure DevOps, Jenkins, Docker, Docker Compose, ACR, Kubernetes (Basics), AKS (Familiar), Helm (Familiar)
- **Infrastructure as Code:** Terraform, Terraform Modules, Variables & Outputs, tfvars, Azure Storage Backend, State Locking
- **DevSecOps & Security:** TFLint, tfsec, Checkov, Gitleaks, Trivy (Familiar), SonarQube (Familiar), Microsoft Entra ID, RBAC, Managed Identity, Azure Key Vault
- **Cloud, Networking & Monitoring:** Azure Portal, Azure CLI, ARM, Azure Landing Zone, VNet, Subnets, NSG, UDR, Load Balancer, App Gateway, Bastion, Azure Monitor, Log Analytics
- **OS, Scripting & Version Control:** Linux (Ubuntu), Bash, PowerShell (Basics), YAML, JSON, NGINX, Git, GitHub
- **Programming & Database:** Java, Python, JavaScript, TypeScript, PostgreSQL, MySQL, Supabase

Experience

DevOps Intern

Dec 2025 – Present

DevOps Insiders

Remote

- Automated end-to-end Microsoft Azure infrastructure provisioning using reusable Terraform modules, deploying Resource Groups, VNETs, Subnets, NSGs, Azure Bastion, Load Balancer, VMs, and Storage Accounts through a single workflow.
- Implemented Azure Landing Zone architecture and built reusable Terraform modules with remote state management using Azure Storage Backend and state locking for consistent multi-environment deployments.
- Designed CI/CD pipelines with Azure DevOps and GitHub Actions to automate infrastructure provisioning and application deployment, reducing manual deployment effort.
- Configured Microsoft Entra ID RBAC roles, enforced least-privilege access, and containerized applications using Docker deployed with NGINX on Azure App Service and Azure VMs.
- Monitored infrastructure health and performance using Azure Monitor and Log Analytics, improving operational visibility and reducing troubleshooting time.

Projects

Terraform Azure Infrastructure CI/CD Pipeline *Terraform, Azure, GitHub Actions, Entra ID, TFLint, tfsec, Checkov*

- Designed and implemented a production-grade Infrastructure as Code (IaC) pipeline for Microsoft Azure using Terraform.
- Built a GitHub Actions CI pipeline executing terraform fmt, terraform validate, TFLint, tfsec, Checkov, and terraform plan on every Pull Request, publishing Terraform plan artifacts for review.
- Developed a Continuous Deployment workflow executing terraform apply post PR approval and merge, with secure Azure authentication via Microsoft Entra ID Service Principal.

Green Eco Drycleaners

React, TypeScript, Terraform, Azure, PostgreSQL, GitHub Actions

- Developed a full-stack laundry management platform with booking, order tracking, payment verification, and an admin dashboard.
- Provisioned Azure infrastructure using reusable Terraform modules, applying Infrastructure as Code practices for modular, repeatable cloud deployments.
- Implemented GitHub Actions CI/CD pipelines integrated with DevSecOps scanning (TFLint, tfsec, Checkov) and role-based access control (RBAC) across the platform.

Leadership

Club Head – Stage Management Team

2023 – Present

Galgotias University Student Council

Greater Noida, India

- Progressed from volunteer to Club Head, leading student volunteers to plan and execute large-scale technical and cultural events across the university.
- Coordinated with university departments, vendors, and cross-functional teams, strengthening stakeholder management while running multiple concurrent events under tight timelines.

Education

Galgotias University

2023 – 2027

Bachelor of Technology – Computer Science & Engineering

Greater Noida, India

Certifications

Completed: Git & GitHub – Version Control | Oracle SQL | MySQL for Beginners | DSA – Graphs & DP

Pursuing: Microsoft Azure Fundamentals (AZ-900)
